PRECISION CUTTING & DOWEL DRILLING

MORSØ - NF

Notch Cutting Machine

Foot-operated

Dust free operation - no compressor needed

- ▼ Dust free operation
- ▼ No compressor needed
- ▼ Exact cut
- ▼ No noise

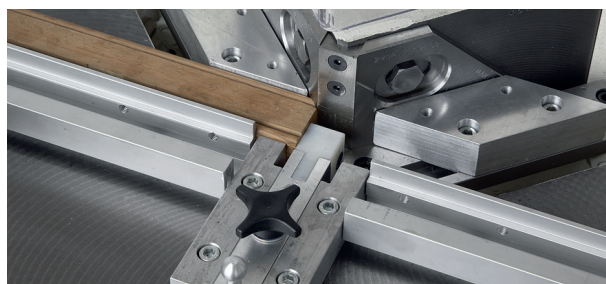

The **MORSØ-NF** is a patented foot-operated notch cutting machine for cutting window bars, mullions, and cabinet front frames requiring haunch joints.

It cuts all kinds of wood, plastic, MDF and plywood.

MORSØ-NF leaves the cut surface of the wood perfectly smooth and accurate, requiring no further preparation before joining. The horizontal

movement of the knife block is stepwise adjustable knives.

The fences, left and right, with the adjustable stops ensure correct work. The special lever system of the machine ensures a very easy operation. Twin return springs automatically bring the knives back to starting position.

TECHNICAL DATA

SUBJECT	SPECIFICATION
Nose widths (Morsø-NFS)	6–20 mm (¼ - ¾)
Nose widths (Morsø-NFL)	12–26 mm (½ - 1. 1/8)
Cutting width maximum	70 mm (3")
Cutting height maximum	160 mm (6")
Fences, left and right	1.500 mm (60")
Extension tables, left and right	1000 mm (40")
Net weight	100 kgs
US PATENT NOS.:	US 6,675,686 BZ - US 6,941,848 BZ
EUROPEAN NO.:	00610130.7 - 2316

To compare MORSØ-NF with a routing machine, the following points must be considered:

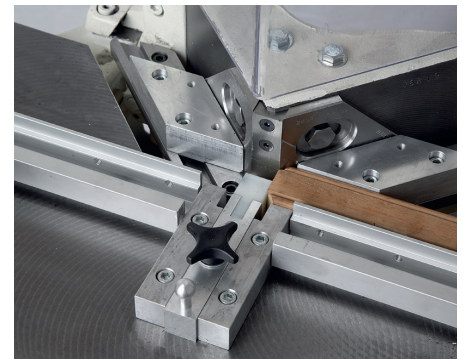

- a cleaner and more constantly accurate cut will be produced with the MORSØ-NF. Therefore no further preparation needed before joining
- the MORSØ-NF produces no dust and therefore requires no extraction
- the MORSØ - NF requires less than 15 minutes to change the cutting blades, to the set -up, and to the positioning of the stops
- as the blades wear, the 45° angle remains unchanged, ensuring consistently accurate joints
- cutting the corner of the cross rails can also be made with the MORSØ-NF

MORSØ-NF is delivered with:

- safety guard
- waste chute
- 6 sliding longitudinal stops (flip stops)
- fences right and left side
- one size nose knife
- one size chip breaker
- one size end piece for center stop
- adjustable center stop for cutting cross rails
- adjustable bead stops

ACCESSORIES

- digital control system
- extra length of fence system
- extra cast iron extension table and supporting leg
- any number of additional flip stops
- second interchangeable head for the machine to cover all range of nose knives from 6 mm (¼") to 26 mm (1. 1/8")
- special interchangeable second head for 4 mm nose knife only

MODELS

(all models can be equipped with Digital Control System)
